

Your Dreams, Our Challenge

REACH SVHC Statement

ECHA Final Candidate List for 253 substances as of February 4th, 2026

To whom it may concern,

AGC Multi Material supplies products that, unless otherwise stated, are defined under the European Union's REACH regulation (EC No 1907/2006) as articles. Our products do not intentionally release substances during normal and intended use in accordance with recommended specifications and parameters.

AGC Multi Material maintains compliance with:

- REACH Annex XVII (restrictions): applicable substance restrictions are respected.
- REACH Annex XIV (authorization): AGC does not use substances subject to authorization in our products.

SVHC declaration (REACH Article 33)

As of the ECHA Candidate List update on February 4th, 2026, the following AGC Multi Material products contain a Candidate List substance above 0.1% w/w at the article level:

- Substance: 1,1'-(ethane-1,2-diyl)bis[pentabromobenzene] (DBDPE)
 - CAS: 84852-53-9
 - Use: brominated flame retardant
 - Safe-use information: The substance is embedded in the resin matrix and is not intentionally released during normal handling and use. Avoid operations that generate dust or fumes (e.g., sanding, high-temperature processing); if such operations are necessary, use appropriate local exhaust ventilation and personal protective equipment. Dispose of end-of-life articles according to local regulations; do not perform uncontrolled incineration.
- Products:
 - Meteorwave 1000, 1000NF, 2000, 3000, 3350, 4000, 4000M, 8000, 8300, M1
 - Meteorwave® ELL101, ELL102
 - Meteorwave® E3, ELL302, ELL305

Unless explicitly listed above, based on information available to AGC Multi Material and supplier declarations, our products do not contain substances on the ECHA Candidate List (SVHC) at concentrations >0.1% w/w at the article level.

Your Dreams, Our Challenge

Note on NMP (information for REACH compliance)

Certain prepregs (e.g., N7000-1 and N7000-2V0) may contain 1-methyl-2-pyrrolidone (NMP, CAS 872-50-4). NMP is not on the ECHA Candidate List (SVHC) but is subject to REACH Annex XVII restrictions. AGC Multi Material manages manufacturing and handling conditions to comply with applicable Annex XVII requirements. Under normal handling, potential exposure is minimized as the solvent is bound in the resin matrix.

AGC Multi Material continues to work with its suppliers to ensure that materials used to manufacture our products allow us to meet our responsibilities under ECHA legislation and industry best practices. The information herein is provided at the request of our customers; AGC Multi Material assumes no liability for its use.

Sincerely,
