

EuMW 2022 PRESS RELEASE

Lannemezan, France, 5th September 2022

AGC Multi Material Europe is very pleased to be exhibiting at the 25th edition of **European Microwave Week**, from 27th – 29th September in Milan.

Bringing industry and academia together, EuMW 2022 provides access to the very latest products, research and initiatives in the microwave sector.

“This is an ideal opportunity to meet with the AGC Multi Material Europe team and find out more about our exciting portfolio of Copper Clad Laminate products for PCBs”, commented Benoît Domercq, President of AGC Multi Material Europe.

Located at Stand B33, AGC will be showcasing its impressive range of both thermoplastic and thermoset materials, manufactured at its facilities in Europe, the US and Asia, including METEORWAVE, NF-30 and FASTRISE amongst many others.
